DIGITAL INCLUSION & GEN AI

INCLUSIÓN DIGITAL + IA GENERATIVA

INKLUSIO DIGITALA ETA ADIMEN ARTIFIZIAL GENERATIBOA

PROGRAMME PROGRAMA EGITARAUUA

If Gipuzkoa is a socially cohesive territory, is it also digitally sustainable?

This International Summer School addresses the strategic challenges of digital rights and the data gap, especially in vulnerable communities. With a focus on social cohesion, ethical AI, and public policy innovation, the programme brings together international experts and local stakeholders to shape inclusive, community-driven digital futures in Gipuzkoa.

Si Gipuzkoa es un territorio socialmente cohesionado, ¿también es digitalmente sostenible?

La Escuela de Verano se centra en los retos de los derechos digitales y la brecha de datos en comunidades vulnerables. Con expertos internacionales y actores locales, busca construir estrategias digitales inclusivas que impulsen una transformación ética y justa en Gipuzkoa.

Gipuzkoa gizarte kohesionatua bada, digitalki jasangarria ere bada?

Eskola honek eskubide digitalen eta datuen arrakalaren erronka estrategikoei heltzen die, komunitate zaugarrietan bereziki. Nazioarteko adituak eta tokiko eragileak elkartuz, Gipuzkoarentzat etorkizun digital bidezko eta parte-hartzaile bat eraikitzen laguntzea du helburu.

SPEAKERS

PONENTES

HIZTUNAK

PROF IGOR CALZADA
Co-director
Ikerbasque/EHU +
Cardiff University/WISERD
(Basque Country/Wales)
